

Valparaíso, Chile

Funiculars

Valparaiso invites you to visit its hills, but it doesn't want you to get tired out! Step onto its famous funiculars (elevators built on rail tracks) and visit the heights of the main port. Technically most of these elevators are funiculars. Only one of them Ascensor Polanco is a true vertical elevator. They were mainly constructed in the late 19th and early 20th centuries.

Funiculares

Valparaíso le invita a visitar sus colinas, ¡pero no quiere que se canse! Suba a sus famosos funiculares (ascensores contruidos en vías férreas) y visite las alturas del puerto principal. Técnicamente la mayoría de estos ascensores son funiculares. Solo uno de ellos, Ascensor Polanco es un verdadero elevador vertical. Se construyeron principalmente a finales del siglo XIX y principios del XX.
